INTERESTS

The Suicide Prevention Community Council of Hamilton has various working committees that report to the Board of Directors. Is there particular committee work that interests you?

- Education and Awareness Committee (Purpose: To provide consistent messaging regarding the SPCCH and the issue of suicide.)
- Conference Committee (Purpose: To guide the development of the Annual Suicide Prevention Conference.)
- Fundraising Committee (Purpose: To develop funds through donations and fundraising events to enable SPCCH to be a sustainable and viable organization throughout the Hamilton Community.)
- I am not interested in contributing to the work of any of the committees. I would simply like to be kept informed of the council's progress and events.
